3 Reason to partner with **Child Care Results** on your **Community Assessment**

A Genuine Partner We're a group of analysts that share your passion for Early Education and understand Head Start needs. We work with dozens of early education agencies in California and are committed to helping you better serve the children and families of your community

Communication is Key We understand the importance of communication and ensure even the most sophisticated analysis is presented in a clear and practical way. Insights are powerful only when they become part of solutions.

Flexible Solution Child Care Results can assist you in every way on your community assessment. Whether it is just a few maps or charts, a complete data package, or even a complete Community Assessment - we work to be the partner you need.

Child Care Results
insight made easy ● ● ● ●

Child Care Results gathers the necessary data to produce a comprehensive analysis, including graphs and maps, highlighting key observations and opportunities for action.

Participation Rate Analysis – Includes the required elements for the estimated eligible population, the actual population served and projected changes.

Head Start Population Characteristics – provides a general description of the demographic characteristics of Head Start eligible families.

General Population Characteristics – Covers multiple demographic characteristics of the population and how the population is changing.

Child and Family Needs Analysis – Includes an incident rate and needs analysis covering special needs populations, health & nutrition, oral health, pregnant moms, behavioral health, and child abuse & neglect.

Child and Family Support Services Analysis – Covers the community resources available to meet the needs identified in the Child and Family Needs Analysis.

Community and Economic Needs Analysis – Includes community safety, housing, transportation, K-12 education, employment, and adult education.

Community and Economic Support Services Analysis – Covers the community resources available to meet the needs identified in the Community and Economic Needs Analysis.
